DETAILED ACTION

Receipt is acknowledged of the request for continued examination and information disclosure statement filed 10/24/2009.

The rejection under 35 USC 112, second paragraph of claims 16, 19-21, 24-30, 44 and 45 is withdrawn.

The following rejection is maintained:

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 22 and 23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims set out "collagen, collagen derivatives" and then later composites of collagen and collagen derivatives". The latter would appear to be encompassed by the term "collagen derivatives" on its own. Therefore, the metes and bounds of the claimed Markush Group are indefinite. As in the previous rejection, it is suggested that applicant amend the claims to read on "and composites thereof"

Allowable Subject Matter

Claims 16, 19-21, 24-40, 44 and 45 are allowed.

US patent 6,224, 893 is cited as a patent of interest in its disclosure of a tissue culture scaffold.
